To Whomsoever It May Concern

It gives me a sense of happiness to jot down this testimonial on Mr. K. Muralidharan Founder Director of Value Enablers Academy (Formerly Kaizen Enablers Academy) because the very thought of something that's real good brings with it a sense of innate happiness!!!

During the long journey in our quest for excellence over the past several years, I have had the opportunity to work with very many consultants. I have no hesitation at all to say that Mr. Murali stands apart from the rest. I say this because while most of them worked with us as just consultants, that was not the case with Mr. Murali. He was a Consultant, Coach, Teacher, Mentor, Motivator all tied together into a single package. These traits exhibited by him helped me as a Factory Head and him as an external consultant to seamlessly transcend the boundaries that generally exists between employees and an external consultant. This blurring of boundaries made the team accept him as one among them which reflected in the results we achieved

Another positive trait I should mention is Mr. Murali's readiness to share his knowledge. As a wise man said - Happiness and Knowledge when shared will have a Multiplier Effect. Our team benefitted Immensely from the various knowledge sharing sessions conducted by Mr. Murali. Due to the mentioned trait, many a times I found Mr. Murali helping us on issues and topics which were far beyond our agreed scope of work.

My experience with Mr. Murali made me recommend his services to our other Units too because I wanted those Units too to get benefitted.

To summarise, it was a WOW experience for me and my team to have worked with Mr. Murali and his team and we are looking forward to work with him on many more Projects in time to come.
