27th October 2018.

VALUE enablers' through their structured & scientific approach has made a significant contribution to the TOP & BOTTOM line of our company.

Mr Muralidharan, Founder-Director, made sure that the Road-Map is crystal clear & the implementation is seamless. His strength lies in his structured assessment & review using their unique VEIZEN® methodology.

Every team member enjoys this journey & they are so happy to be the part of this learning & growing.

As a part of the Road map we have initiated the following

i) 5S
ii) PFAM - Process Flow Activity Mapping
iii) VSM - Value Stream Mapping
iv) Moonshine techniques
v) Lean Layouts
vi) Waste elimination techniques
vii) Work Standardization

Their strengths lie in their HANDS-ON approach at the work place & empathizing with people to hand hold and lift them towards excellence.

The quick key benefits realized in first 6 months of Lean Kaizen initiatives are:
a) Reduction in space utilized: by 25%
b) Decrease in throughput time: by 30%
c) Increase in productivity: by 35%
d) Total Employee Involvement: in 5s & Kaizen initiatives.

The journey towards excellence is never ending and we look forward to a long term association with VALUE enablers to take NMK to new heights year on year.

While we are pleased with the progress, we highly recommend VALUE enablers for Lean Kaizen implementation to all industries.

Best wishes to VALUE enablers & its Team,

For **NMK Textile Mills India Pvt Ltd**

Rohit Mehrotra
Director
